

Every prediction recorded before its data, and how it scored

Collapsed variant ranks last on the single score	FAIL
Detect collapse across the whole signature table	FAIL
Collapse detector exact at every level tested	PASS
Unchanged under a shared rotation	PASS
Respond to offsets, rotations and warps	FAIL
Predicts how content carries across languages	PASS
Same, excluding the generation measure	PASS
Downstream signal on the frozen model set	PASS
Same signal across the full grid	FAIL
Adds to the strongest published measure	BRANCH
Collapse costs at least 5 points of ability	FAIL
Published measure misranks this panel	VOID
Panel validity given the above	VOID
Alignment training adds no downstream gain	PASS
